

Simple Test Document

LaTeX to PDF Converter Test

October 30, 2025

1 Introduction

This is a simple test document to verify that the LaTeX to PDF conversion script works correctly.

2 Features

- Basic document structure
- Sections and subsections
- Lists (both itemized and enumerated)
- Mathematical formulas
- Simple formatting

2.1 Mathematical Example

Here's a simple mathematical formula: $E = mc^2$

And here's a more complex one:

$$\int_0^\infty e^{-x^2} dx = \frac{\sqrt{\pi}}{2}$$

3 Enumerated List

1. First item
2. Second item
3. Third item with **bold** and *italic* text

4 Conclusion

If you can see this PDF, the conversion script is working successfully!
